

Fremont Daily Journal.

SATURDAY, JUNE 8, 1861.

ISAAC M. KEELER, Editor.

FUNERAL OF DOUGLAS.

Chicago, June 7.—Business generally suspended to-day, the board trade having agreed yesterday until Saturday banks, jobbing houses, and dry goods stores, should all be closed.

Streets at an early hour in the vicinity of the line of march of the funeral procession densely thronged with people, large numbers of whom arrived from the country, by morning trains.

At 11 o'clock amid tolling bells and firing of minute guns, the procession moved from Bryan Hall, where since Tuesday the remains have lain in state, through Clark and Lake streets, to Michigan avenue, thence to Cottage Grove.

Procession about two miles in length, and occupied an hour in passing. Estimated 10,000 persons in cortege.

Military, Governor, State Officers, members of the Legislature, Medical, Legal professions, Masonic Fraternity, Mercantile Association, Fire Department, Typographical Union, all Benevolent Societies of the city, were out to do honor to the memory of the illustrious dead.

At Cottage Grove services were conducted by Bishop Duggan, who delivered a brief but eloquent oration on the character of the deceased.

From various towns in different parts of the State, we learn business was suspended and the day appropriately observed.

Independent Guards, Attention!

The members of the Independent Guards are requested to meet at the Court House in Fremont, on SATURDAY, June 8th at 2 o'clock P. M. for Drill.

By order of Company.

The two men who were injured in the explosion of the steam mill at Bellevue, Thursday afternoon, died the same night. They were buried yesterday afternoon. A lady in the house adjoining had an arm broken by a flying fragment.

This number closes one month of the DAILY JOURNAL. Our friends who contemplate continuing with us another month, will confer a favor on us by renewing their subscriptions during the coming week.

This is to be a general training day in Fremont. The Home Guards, the Independent Guards and the Tillotson Guards will all be on parade, the weather being favorable.

The Messenger Extra of last evening announced that a Cavalry company and the Volunteers who have returned from Camp Dennison on furlough, will also turn out. If so, to use the expressive language of the Messenger, "some military again" to-day.

The returned Volunteers belonging to Capt's Haynes and Tillotson's companies, are invited to call in our office during their stay, and get the DAILY JOURNAL free of charge. Printed every morning, except Fridays and Sundays, by 6 o'clock.

The Enfield rifled muskets, which were imported from England, have been taken to the Massachusetts State Arsenal, at Cambridge.

The DAILY JOURNAL can be had every morning at McCulloch's Drug Store. It contains all the telegraph news and much other miscellaneous and local intelligence. Price, 2 cents.

Last Night's Despatches.

(Commercial's Washington Despatch.)

Washington, June 7.—The picket guards of the Highlanders were fired on last night at Germantown. Offers have been made to Government to construct steel plated vessels, bomb and shell proof, and be finished within six months after the contract is signed. Not known that government will accept such offers.

Additional troops have been ordered to Chambersburg. This is understood as an indication that the line of the federal army are rapidly closing, and that the forces under Gen. McClellan in Western Virginia will act in concert with the Pennsylvania troops for the reduction of the fortifications at Harper's Ferry.

Senators and members of the House are coming by every train.

The Government has decided that it will not accept any more contributions from States, and hereafter will obtain all the funds necessary for the support of government through the regular channels.

The 71st regiment was engaged in scouting duty last night, to prevent the rebels from seizing provisions in Maryland.

(Evening Post Special.)

The National Republican pronounces false the reports about recovering of vessels at Norfolk.

It is understood Government will not make any further requisitions for troops at present.

Col. Meigs is still in charge of the Potomac aqueduct and public bridges.

The President's mansion and all the departments are closed to-day in honor of the memory of Senator Douglas.

Several companies of regulars belonging to the 3d infantry, leave to-night for Harper's Ferry, via Chambersburg.

New York, June 7.—The following is a special but seems groundless:

Washington, June 7.—Reported on high authority, that if England interferes in American affairs, France will side with our government to put down rebellion. Napoleon will not permit England to cripple her greatest maritime rival.

New York, June 7.—Report current to-day that the N. Y. 7th regiment is again ordered immediately to the seat of war.—Report unconfirmed.

Washington, June 7.—All rumors since Saturday of marching of federal troops on Fairfax C. H., are without foundation.

The President has recognized Miguel Sajoza, Consul from Mexico, to San Antonio, Texas; thus continuing the policy of treating secession as a nullity.

St. Johns, N. F., June 7th.—The telegraph lines were again cut on Monday evening in a number of places. A large body of police has been despatched to the various points of difficulty, and every energy is being strained to capture the miscreants who are engaged in a regular organized body for the destruction of the lines.

The Vigo for Liverpool, passed Cape Race on Wednesday night, but no despatches were put aboard of her. It is useless to send messages for Europe this way, until the local affairs of the Province are improved.

Cincinnati, June 7.—The 11th Indiana Regiment of Zouaves, Col. Wallace, fully armed and equipped, passed through this city this afternoon, en route for Cumberland, Md. They made a splendid appearance and were enthusiastically received.

Louisville, June 7.—The Journal says that a large quantity of arms were secretly brought from Tennessee to Kentucky, on Wednesday, by secessionists.

The New Orleans Picayune of the 4th inst., says that the Mexican schooner Brill-

iant, was ordered off the Pass by the Brooklyn. The brig Creole was seized and sent North.

The British, French, Spanish, and Bremen Consuls at New Orleans, M. Barouche the French Agent, had an interview with the commander of the Brooklyn.

There is a destructive crevasse on the Louisiana side of the Mississippi near Natchez, 250 feet wide and 10 feet deep.

A Norfolk despatch to the Atlanta Confederacy says, the Merrimac's machinery is uninjured, and she will be ready for sea by Friday.

The Charleston Courier of the 4th, says that the Minnesota is the only vessel off that port.

The Memphis papers are calling the attention of the Vigilance Committee to the high price of provisions charged by dralers there.

The Mobile Register says that the Baltic turned the British ships Pertissee and Bramley Moore to sea on June 1st, from Mobile Bay. The port is now clear of shipping.

Lane, Illinois, June 7.—A fire broke out here this morning in the warehouse of Boyce & Besup. The flames speedily communicated to the warehouses of Spaulding & Co., Murphy & Son, Lake & Beckman—all of which were destroyed. Loss on grain \$15,000; buildings \$8,000—partly insured.

Washington, June 7.—5 companies of United States infantry left on the cars, said for Chambersburg.

35 guns are now mounted on the embankments near Arlington Heights. An attack is shortly expected from the rebels at Manassas Junction.

Boston, June 7.—The frigate Colorado sailed to-day for the South.

Frederick, Md., June 7.—A gentleman just from Harper's Ferry, reports that Jeff. Davis is expected there to-morrow. Every thing is in readiness and an attack eagerly expected.

There is no indication of the place being evacuated. New troops are constantly arriving. Provisions are abundant. The strictest discipline is maintained. He was prohibited from talking with the soldiers; says 17 men are there.

Louisville, June 7.—The members of the Louisville battery have disbanded because a majority of its members believe the field officers of the battalion to which it is attached have secession proclivities. The guns are in charge of Col. Hunt at Muldraugh's Hill encampment.

There is no corroboration of the statement that U. S. troops have crossed from Cairo to Kentucky side of the Ohio river, nor is the report believed here.

Letters reaching here, directed to points in the seceded States and Memphis, are detained here, and will probably be sent to the dead letter office.

The National flag was raised over the Custom House and Post Office buildings this afternoon.

The Memphis Avalanche says, "the Lincolns boast that they have a navy and we have none. In this they are mistaken. In a few days we will have two from Europe—the English and the French—which will give due attention to Lincoln's pretended blockade." The traitors evidently think that the old world is as crazy about cotton as they themselves are. At the same time with strange inconsistency, they are plowing up their cotton fields and sowing corn. We see accounts of this in nearly all our exchanges in the seceded states. Between the blockade and this substitution of crops, we reckon foreign vessels will have very little inducement to visit southern ports.

Carrying Out the Original Injunction.

The New Orleans people are resolved not to neglect their moral responsibilities, notwithstanding their political dissoluteness.—A Sunday school convention there recently passed the following resolution:

Resolved, That a committee of ladies and gentlemen be appointed whose duty it shall be to raise children for the Sabbath schools.
